

Get your teeth into Dr Schutz

DR Schutz, the German floor care company offers PU Sealer, designed to combat floor wear and tear associated with medical rooms. PU Sealer, a water-based, eco-friendly sealant, can be used on most types of flooring including vinyl, tiled and epoxy resin. It is applied as a lacquer seal which is then carefully layered over worn flooring, creating a new floor on top of the old surface.

Adding 40 microns of protective thickness to floors, PU Sealer extends their lifespan by up to six times and provides a lasting clear, matt finish. Thanks to its permanent sealing it protects against friction and discolouration from chemical spillages. This process does not require any equipment to be dismantled, which is particularly important in the dental surgery as it eliminates the need to move the treatment centre, which can be time-consuming and disruptive to the practice.

Thanks to the short drying time there is a fast return to operational use, and the process produces neither noise nor dirt. A standard renovation can be completed in a weekend keeping day-to-day disruption to a minimum.

The Dr Schutz PU Sealer range also includes PU Antislip and PU Anticolor. For more information call 01296 437827, e-mail Richard@dr-schutz.com or visit www.dr-schutz.com.

7connections – professional, honest and down to earth

LORRAINE Wilson is the practice manager of Dentistry on the Square in Glasgow. She and her team recently enlisted the business expertise of Karl Taylor-Knight from 7connections to help make sure the business was ready for expansion.

"We chose to seek business support in order to grow the practice and ensure it reached its full potential," Lorraine says. "We approached the team at 7connections due to their high reputation and extensive experience within dental coaching.

"Karl has helped us focus on associate profitability and provided more in-depth training with regards to setting up a budget with a P&L. This has been a fantastic help. He also provided a list of areas to look at and improve in order to enhance our productivity and income.

"Working with Karl has helped me enormously – it's great to have someone with experience to bounce ideas off, and he has provided valuable support.

"All in all, the 7connections team are very professional, honest and provide great guidance. I would certainly recommend their business support to other practices."

For more information about 7connections business coaching, call 01647 478145 or e-mail phillippa.goodwin@7connections.com.

Help the BDA Benevolent Fund spread some cheer

WHILE Christmas is the best time of year for many, we are all more than aware of the added expense that comes with the festive season. For those among us already struggling to keep up with routine living expenses, the extra pressure can prove too much.

For dentists who have suffered accident, illness or other life-changing events, the Christmas period can be difficult to cope with, and that is where the BDA Benevolent Fund can help.

The Fund offers financial support all year round but gives all regular

beneficiaries some extra support, with a supplementary fuel grant and a special Christmas grant to give a helping hand through the winter months. This will ensure they can heat their home, feed their families and enjoy the festive period.

The Fund relies on kind donations from the dental profession. Every pound received goes to dentists who are in crisis. Any gift you can give could make a huge difference to beneficiaries' quality of life. Please help us help those colleagues in need this Christmas.

To make a donation go to www.bdabenevolentfund.org.uk or send a cheque to: BDA Benevolent Fund, 64 Wimpole Street, London W1G 8YS. For more information about the BDA Benevolent Fund, call 020 7486 4994, e-mail administrator@dentistshelp.org.uk or visit www.bdabenevolentfund.org.uk.

Dental CPD Pro – 'you can't get behind on CPD'

"THE Dental CPD Pro app gives users a chance to remain current for the full cycle," says Melonie Prebble, dental hygienist and therapist at Abbey Road Dental in North West London. Dental CPD Pro is the free app that records all of your CPD at the touch of a button. The new app also gives you the option to securely link the app with your eGDC account.

Melonie continues: "You can't get behind on CPD. So far I have found an excellent and varied range of non-verifiable topics along with up to date learning on core subjects. Dental CPD Pro is a clean, well-constructed app. I love the fact that I just click a button and everything is kept up to date in my own library and syncs with my eGDC account. I can also click on stats to see a graphical overview of my CPD cycle hours."

For more information on the Dental CPD Pro app, visit <http://dental.cpdpro.org.uk>.

EndoCare – support when you need it most

AT EndoCare we bring together a leading group of experienced endodontists, ready and available to assist you and your patients with all aspects of this challenging procedure. We welcome all contact from our referrers and are happy to discuss cases, offer help and give advice on all aspects of endodontics and patient care.

Our team of experienced endodontists are not only experts in their field, but they are also all warm, friendly and compassionate individuals, and will guide and support your patients through every moment of their time spent with us.

For complete peace of mind, we guarantee that we will give the best care to your patient and communicate with you promptly at each stage of your patient's treatment. Indeed we aim to look after your patients in the same efficient and caring manner that you would, returning them to you pain-free, confident and happy with the quality of treatment they have received.

To learn more about endodontic referrals, and how we can become an important part of your team, contact EndoCare today.

For further information, call EndoCare on 020 7224 0999 or visit www.endocare.co.uk.
