

EndoCare - saving teeth is what we do!

At EndoCare we aim to become a valuable extra member of your team, helping and assisting you with any aspect of Endodontic treatment. We welcome all contact from referring practices, and we are more than happy to discuss cases, and offer our support in any way we can.

Among our range of services, we are happy to take referrals for anything from post removals to advanced microsurgery techniques. We particularly excel in treating anxious patients and dealing with anaesthetic problems and other challenging issues, such as hot pulp and re-treatments.

When your patients visit us we aim to treat them in the same manner we would expect to be treated ourselves - with warmth, compassion and honest empathy. A member of our team will always be on hand to answer any questions or address any concerns the patient may have, and we will aim to make each patient's time with us as pleasant and as comfortable as possible.

To find out more about our range of referral services, and how we can become a valuable extra member of *your* team, contact EndoCare today.
