Technology aids compliance with the new Standards

EVOLVING with the profession, Carestream Dental's R4 Clinical+ Practice Management Software is a fantastic tool when it comes to demonstrating compliance.

With treatment details and images stored in each patient file, the software aids patient communication significantly and helps ensure patients have a thorough understanding of any proposed treatment. This in turn enhances the quality of patient consent, with recorded evidence

showing how patients were informed, improving compliance to outcomes 1, 2 and 3 of the new Standards.

The fully integrated software is also kept secure to protect confidentiality, and files can only be accessed by authorised professionals.

Call 0800 169 9692 or visit www.carestreamdental.co.uk.

Feast your eyes on UnoDent autoclavable eyewear

FUNCTIONAL or sleek and uber-stylish, The Dental Directory carries the perfect pair of UnoDent protective glasses for the clinical team and patients.

All UnoDent eyewear is CE-marked and manufactured to European Standard EN166 – 1FT for Technical Performance. UnoDent also carries one of the only autoclavable designs in the market today, making eyewear maintenance hygienic and convenient.

And with all styles and colours on two-for-one offer, it's never been a better time to feast your eyes on new protective eyewear for the entire clinical team.

Call 0800 585 586 or visit www.dental-directory.co.uk.

Digital imaging service and support plan – peace of mind

CLINICS can avoid expensive and disruptive downtime with a comprehensive Service and Support Plan from The Dental Imaging Company.

The plan includes a free annual service and support for equipment and software. Michael Norton of Dental Implant Reconstructive Dentistry, Harley Street, says it provides "peace of mind for all my digital imaging technology".

Richard S. Kahan of The Academy of Advanced Endodontics, London, has cover in place for his Morita 3D cone beam CT scanner: "The machine is mission critical to my practice and it is vital that I have the back-up provided by the plan."

Call 0845 602 4944 or e-mail info@thedentalimagingcompany.co.uk.

Protect your patients with Bib-Eze

BIB-Eze dental bib holders from DUX Dental have been created specifically to optimise hygiene in the dental surgery.

Researchers at Tufts University School of Dental Medicine recently proved dental bib clips to be a common source of bacteria in the practice.

DUX Dental designed disposable Bib-Eze bib holders to eliminate the problem and to ensure the safety of both you and your patients.

Made from lightweight, elasticised fibre, Bib-Eze guarantees patient comfort, while also offering easy handling and application for a smooth and efficient workflow.

Get your free trial Bib-Eze disposable bib holders from DUX Dental today.

For more information or for your free trial pack call 00800 24146121, e-mail info@dux-dental.com, or visit www.dux-dental.com.

EndoCare – because every tooth counts

OUR team of talented and highly experienced endodontists are all experts in their field and wholly committed to providing high-quality treatments and outstanding levels of patient care.

We welcome contact from all referring practices and are ready and willing to assist in any matter relating to endodontic treatment. We particularly excel at treating nervous or anxious patients and other challenging issues such as hot pulp, microsurgery and re-treatments.

The team are all equipped with the latest technology to ensure patients receive the very best standard of care. This includes cutting-edge digital imaging systems, NiTi instruments, and The Wand to offer more comfortable injections.

For further information call 020 7224 0999 or visit www.endocare.co.uk.
