10,000 teeth 020 7224 0999

www.endocare.co.uk

In 10 years Endocare has saved more than 10,000 teeth. Endocare understands how valuable a tooth is. By saving more than 10,000 teeth avoiding extraction, it leaves patients happy and pain-free.

Patients that need help or support with endodontics, contact Endocare's experienced team today. It's team of warm and friendly endodontists are all experts in the field, and are dedicated to treating dental pain and infection in all its forms. To ensure patients receive the best care possible, Endocare works closely with all its referring colleagues and will keep the referring dentist updated through every stage of their patient's time with the clinic. Endocare welcomes all contact, and it is happy to discuss cases, and offer help and support in any way it can.

To learn more about endodontic referrals, and how Endocare can become a crucial extra member of the team, contact Endocare today.

Getting to the root of dental pain

Join ESAO

esao@esao.co.uk

Become a member of the European Society of Aesthetic Orthodontics (ESAO) and enhance one's knowledge and experience of aesthetically focused orthodontics.

The ESAO offers an unbiased, specialised perspective on the provision of orthodontics, including events and conferences with speakers from across the profession. Offering both associate and full membership, the benefits of joining the ESAO include:

- Access to the ESAO informed consent and orthodontic assessment forms
- A monthly newsletter
- Discounts on ESAO courses
- Discounts from the ESAO partners
- Access to online training materials
- Listing on the online dentist locator
- ESAO full membership logo.

On 21 June, the ESAO will be running parallel courses for dentists and nurses with hands-on sessions. Dentists will get the opportunity to practice interproximal reduction (IPR), direct wire retainer bonding, composite edge bonding on typodonts, as well as assessing for TMJ abnormalities.

Evolution of popular dental implant system

Implants.uk@dentsply.com

www.courses4implants.com

Some of the UK's leading practitioners of implant dentistry assembled in London on Friday 21 February to celebrate the launch of Astra Tech Implant System EV.

The Astra Tech Implant System EV combines surgical flexibility and restorative ease. The system supports long-term maintenance of marginal bone levels, backed by documented clinical success spanning three decades.

Creeping taxes

www.figurit.co.uk

The beginning of another tax year is approaching and dentists can make it their resolution to let Figurit take care of tax filing and help maximise claims and savings. Figurit is a specialist accountancy and tax service exclusively for dental associates. Figurit can help organise accounts, keep track of important tax deadlines throughout the year, providing dentists with sound investment advice and help maximise tax claims so they end up saving the greatest amount in tax money.

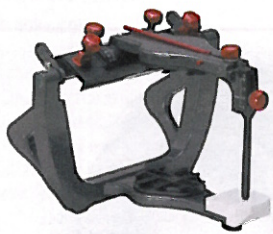

Figurit also has helpful online tools such as a yearly tax calendar for important deadlines and tips to make filing and paying taxes an easier event.

advice@genixhealthcare.com

www.genixhealthcare.com

GENIX
Healthcare Ltd

Filling the gap in dentistry

Now every patient can look forward to affordable and regular dental care with the launch of Genplan from Genix Healthcare.

Genplan is a scheme that allows patients to avail of twice-yearly check-ups, scales and polishes and X-rays through low monthly payments.

Aside from basic preventive care, Genplan will also offer all its members discounts on routine and cosmetic treatments available through Genix Healthcare Clinics. This includes root canals, fillings, tooth whitening and more. Families who join the dental plan will also enjoy the additional benefit of free check-ups for children six years and younger.

Golden sponsor

www.dentalshowcase.com

BDIA Dental Showcase has announced that Oral-B, global brand in dentistry and member of the P&G family, will return as gold sponsor of the event.

The event takes place at London's Excel from 9-11 October 2014. The BDIA was formerly The British Dental Trade Association. Neha Joshi, market strategy and planning manager at Oral-B commented: 'Oral-B is once again proud to be collaborating with the BDIA as gold sponsor of BDIA Dental Showcase, the UK's premier dental event.'

'The exhibition provides the most incredible opportunity for the entire dental team to keep up to date with the very latest developments in dentistry, meet and exchange ideas on a one-to-one basis, and most importantly, to experience first-hand the widest selection of dental products and services.'

Talking Points

www.gsk-dentalprofessionals.co.uk

Due to popular demand GSK adds Cardiff as a new location to the Talking Points line-up. Talking Points visits a total of 11 venues throughout the UK. Also for the first time, the lecture series has been split by both date and topic, allowing Talking Points to cover more of the topical issues in Dentistry.

Next month Professor David Bartlett and Professor Tim Newton from King's College, London, will provide an insight into the aetiology and psychology of acid wear, with tips on how to motivate patients to protect themselves against this condition, which now affects one in three young adults. In September, all dates and information for the North will be announced soon. References are available on request.
