

Even more support for your practice

DPAS Dental Plans have launched 'Business Bites', a range of practical business solutions and special offers designed to support practice growth.

Available exclusively to DPAS clients, Business Bites is the latest initiative from DPAS Solutions and provides practices with all the convenience of a 'one stop shop', but with the flexibility to choose the products and services that best suit their needs.

As experts in dental plan administration, DPAS believe practices deserve expert support in all areas of their business, which is why, through Business Bites, DPAS has teamed up with some of the dental industry's leading providers, offering its clients an exclusive selection of special offers from the likes of ADAM (Association of Dental Administrators and Managers), Apolline, Carefree Credit Dental, Dental Focus, Dentally, 4dentists group, Lloyds Bank Cardnet, Medifinance, Milkshake Marketing, Practices Made Perfect and ProDentalCPD. ■

Are you planning your exit?

COME and meet the Dental Elite team at the BDA Conference and Exhibition 2015 on stand B36 or join us after the show at our Exit Seminar. The company will hold five short presentations exploring retirement, selling a dental practice and exit planning on Thursday 7 May 2015.

The event will carry two hours of verifiable CPD and will be held at the Midland Hotel directly opposite the GMEX. The speakers will include:

- Sim Goldblum – The Dentistry Business
- Rizwan Akhtar – RA Accountants.
- Luke Moore – Dental Elite, 'Dental Practice Sales Agents & Valuations'.
- Alex Hall – Partner – Meade King Solicitors, Specialist Dental Solicitor.
- Ray Prince – Rutherford Wilkinson, Financial Planner.

A drinks reception with canapés will begin at 6pm, followed by the seminar, so come and meet the team there. ■

Excellent handling, adaptation and aesthetics

DESIGNED for excellent handling, adaptation and polish retention, 3M ESPE brings you Filtek Bulk Fill Posterior Restorative.

Utilising proven nanofiller technology, the restorative offers high strength and wear resistance. A one-step placement of up to 5mm increments and no capping layer required, means you can create restorations with speed and simplicity. Optimum aesthetics are also easily achievable – in a field evaluation of over 150 dentists, 82 per cent found the shades available to match their expectations for posterior restorations, and 88 per cent believed Filtek bulk fill posterior restorative to produce the same or better aesthetics than their current products.

Discover the benefits for yourself and contact 3M ESPE today. 3M, ESPE and Filtek are trademarks of the 3M Company. ■

No needles necessary!

FILLERINA is the first Dermo-Cosmetic filler treatment for at-home use and its fast penetrating formula means no needles are required.

Featuring a unique blend of six different hyaluronic acid molecules, Fillerina penetrates deep into the cutaneous tissues of the skin to fill in wrinkles and depressions and boost the volume of cheekbones and lips.

Fillerina comes in a range of products including day cream, night cream, lip cream and eye contour cream, all available from The Dental Directory, and it has been proven to effectively:

- Decrease depth and volume of wrinkles,
- Increase cheekbone volume,

- Increase lip volume,
- Lift facial features.

Enhance your provision of cosmetically focused treatments and products by stocking the Fillerina range today. Contact the experienced team at The Dental Directory to find out more. ■
