

More than just a referral clinic

At EndoCare, we strive to be more than just the clinic you send your patients for the treatments you can't provide - we aim to be an integral part of your team.

We ensure that you are kept up-to-date with every facet of your patient's time with us, so you can be assured of the quality of treatment they are receiving. Whether by email or over the phone, we aim to always keep you involved.

This way, we can create a more homogenous service that not only saves you and us time, but means the patient is never left in doubt that they are receiving the best care.

With three state-of-the-art facilities, an experienced and compassionate team and the expertise to manage even the most complicated endodontic treatments, EndoCare can be the solution to your referral needs.

To find out more about how we can work together, contact the friendly team today.
