

## Expand your knowledge

Interested in reinforcing your orthodontic knowledge with the use of effective appliances and excellent educational support? If so, the ClearSmile Brace Conversion Course by the IAS Academy will be perfect for you.

The course will introduce you to a different type of educational pathway focused on taking GDPs from simple to more complex orthodontic solutions. The conversion course is ideal for any professional looking to provide their patients with an effective, minimally invasive anterior orthodontic alternative. The emphasis is on providing safe, ethical and supported programmes with an ongoing educational continuum.

Delivered by highly respected speakers, the course ensures you learn everything you need to invest in a successful future in Anterior Alignment Orthodontics (AAO).

To find out more, contact the team at the IAS Academy today. ■

## Keep your practice safe

EXPLORE Kemdent's new website [www.kemdent.co.uk](http://www.kemdent.co.uk), which features excellent product offers and discounts, clinical articles and how-to videos. Customers can now order online with secure payment and a repeat-order facility.

Kemdent are offering customers PracticeSafe alcohol-based surface disinfectant 5L at a fantastic price of £23.15 + VAT during August 2015. Dental practices and laboratories no longer need to use unpleasant-smelling chemicals when cleaning hard-alcohol-resistant surfaces and medical devices. PracticeSafe alcohol-based surface disinfectant is ideal for the effective cleaning of busy practices, disinfection of impressions, try-ins and models, plus it has the added benefit of being available in four fresh fragrances.

It is also available in 500ml spray and is highly effective against bacteria. Visit the website today. ■

## Saving teeth and changing lives

ENDOCARE understands the importance of delivering first class dentistry and the effect that a healthy mouth can have on a patient's overall health and wellbeing.

The connections between systemic medical conditions such as heart disease and diabetes with oral health and periodontitis are well established, and it is vital to address these issues with patients at every opportunity. EndoCare's experienced experts always look for ways of sharing their knowledge and skills with patients and the profession alike.

EndoCare is committed to saving teeth and enhancing the lives of your patients. The company believes in the benefits of endodontic therapy over extraction and are passionate to ensure your patients

retain their natural teeth for life.

For more information on how your practice can benefit from our years of experience, contact EndoCare today. ■

## Perfect blend of strength and beauty

NOBEL Biocare has delivered an array of cutting-edge solutions to the dental market over the last few decades.

Among its latest innovations is the NobelProcera Full-Contour Zirconia (FCZ) implant crown, offering the ideal blend of strength, workflow flexibility and aesthetics.

Designed especially for conical connection implants, the 100 per cent cement-free FCZ implant crown is available on its own; or as part of the new and exciting complete posterior solution.

To ensure optimum aesthetics, even when adjustments need to be made, the FCZ is available in eight shades with the colour applied throughout. It can also be used in conjunction with the innovative Angulated Screw Channel (ASC) abutment and unique Omnigrip tooling, which enhance access and allow outstanding restoration of anterior teeth.

To discover the new posterior and anterior restorative possibilities available with the FCZ Implant Crown, contact Nobel Biocare today. ■
